## YMCA Camp U-Nah-Li-Ya Packing List 1 Week Backpacking Trips

## Packing Hot Tips:

- 1. Pack with your camper make sure they know what they are bringing.
- 2. Put your camper's name on everything you care about. Add a phone number too if you can.
- 3. Camp is tough on clothes and gear, be sure you are sending items that can get roughed up.
- 4. Pack a separate bag or trash bag that can be used for dirty clothes.
- 5. **For trips**, the motto "2 is 1 and 1 is none" fits. Anything that is critically important should have a backup set. Headlamp, water bottle, warm layers, etc.
- 6. **For trips**, do not send brand new boots. All footwear should be comfortable and well broken in before going on trail. New boots are likely to be uncomfortable and cause blisters if they have not been broken-in first. 2 weeks prior to camp have your camper wear their new boots a couple hours each day doing moderate activity. At least once, get them soaking wet and wear them for an hour or two, or until they are dry for best results..
- 7. Again, put your camper's name on everything you care about. Finding an item in "lost and found" will be significantly more successful if you have a name on it.
